GENERAL INFORMATION

SUPER-NITRO 28-0-0 is a liquid fertilizer designed for application on turf and ornamentals requiring supplemental N during the growing season. A portion of the nitrogen is in a control release form providing more efficient nitrogen utilization.

SUPER-NITRO 28-0-0 is recommended as a carrier for pesticides. The control release nitrogen prolongs the wetting of leaf surfaces for greater penetration and less loss from crystallization on leaf surfaces as with liquid urea products

DIRECTIONS FOR USE

SUPER-NITRO 28-0-0 can be soil or foliar applied through ground or aerial applications. Use sufficient water for thorough and uniform coverage of foliage or soil. Foliar application is recommended when fast correction is desired.

SUPER-NITRO 28-0-0 will disperse in water with minimal agitation. Always check compatibility before mixing.
